Subject What does it mean?

Description of Problem or Suggestion:

In #S-CLS-10020, does the text mean that --1-- the user can add qualifiers and only search the container object of positive hits from a previous search or --2-- the user can add/delete/modify qualifiers and only search the database(s) used in a prior search, or either at the users choice? Same question for #S-CLS-14030?

Originator's Recommendation
